SEASONS

When is the best time to plan an event in Port Douglas, we hear you ask? The region with only two seasons has something for everyone, all year round! Those balmy, tropical climates mean plenty of sunshine-soaked days during the endless summer, and a magnificent Mother Nature during the tropical green season!

Endless Summer

MARCH – OCTOBER

These endless summer days are balmy and the evenings deliciously cool, with the temperatures in Port Douglas ranging between 17-26°C. Pack lightly – only on very rare evenings a wrap is required during these months. Winter days in Port Douglas are filled with warm and sunny weather, which makes swimming in the Coral Sea or in the vast lagoon pools in the middle of July great to write home about.

Tropical Summer

NOVEMBER – APRIL

Summertime, or the green season, means warmer weather and restorative rain in Port Douglas with the first monsoonal rains, usually around November, and ending around May. About 75-90% of the annual rainfall is recorded then. This rainfall can be a welcome relief for those that don't like the weather too humid, and in particular want to witness the rainforest teeming with life alongside waterfalls in full flow.

Tropical Team Building

With an unrivalled playground encompassing the World-Heritage listed Great Barrier Reef and Daintree Rainforest, team building activities in Port Douglas deliver tropi-cool fun for your delegates. Port Douglas offers up a smorgasbord of fun and challenging programs for corporate groups to enjoy and learn from. See a taste of what is on offer below;

CARBON OFFSET CHALLENGE

Teach delegates on how to calculate the carbon emissions created in their day-to-day lives in the most delicious manner.

Your group is divided into teams and given locations of the local farms where they can collect the ingredients for a lavish luncheon. Groups take note of their carbon footprint as they travel from farm to farm and then work together to transform their fresh recipe into sumptuous dishes judged by the chef. Teams then add their lunch challenge emissions to the group's overall program consumption and once a carbon footprint has been established, they are taken to a location and given the necessary tools to start planting trees to offset their carbon emissions.

AMAZING RACE AROUND THE PARK

This Amazing Race-style activity encourages teams to bond and work together while exploring a nature park. Teams follow clues to checkpoints across the park, with bonus tasks and checkpoint challenges ensuring it's not necessarily the fastest team that takes out the day but a combination of time, wildlife knowledge and listening skills that makes every team a contender.

CORAL REEF BRIEF

The Great Barrier Reef is a magical place to learn about the environment and your delegates will be educated about how their everyday actions impact this iconic landmark. Joining into teams and gathering real time data on its health, before collating the information and using the results to learn how to protect the reef from human impacts.

FLORA & FAUNA ADVENTURES

Get hands-on with the plants and animals of the rainforest. Delegates can get involved in a rainforest restoration project, learn about koala conservation at one of the scientific sanctuaries established to protect them or participate in caring for the wildlife. Corporate groups experience a behind-the-scenes exploration of the rainforest created to suit their needs.

This is just a taste of the options available in Port Douglas. If you are chasing something different, please do not hesitate to reach out to the Business Events Port Douglas Team.

Leading the way in Sustainable Tourism

In 2019 the Port Douglas and Daintree region become the world's first destination to be awarded Ecotourism Australia's ECO Destination Certification and we have continued to improve on our eco credentials with the elevated level of Ecotourism being reached in 2020 showing, that as a region, we are committed to the path of continuous improvement in this very important area.

Port Douglas sits at the very heart of two significant World Heritage natural sites – the Great Barrier Reef and the Daintree Rainforest. The ECO Destination certification, through its rigorous auditing process, sets the Douglas Shire and its unique natural experiences apart from everywhere else.

You can energise and enrich your incentive of conference by committing to long term sustainability through choosing to travel to Port Douglas, contributing to ensuring the conservation of our pristine, World Heritage environment by working with our many eco-certified suppliers.

Additionally, you can choose to offset the remaining carbon footprint of the program by buying into an offsetting scheme investing in local community projects that align with internal corporate social responsibility and sustainability practices.
